THE WORLD NEEDS YOUR GIFT

The Anti Stigma campaign has been developed by the Health Promotion team at Bendigo Community Health Services.

Every day, people are being excluded, shamed and victimized because we haven't taken the time to hear their story.

We all have a role to play in breaking down the barriers and reducing the harmful impact of stigma.

It is important to act without judgement and take the time to listen and support each other.

We encourage you to help change this story and work towards breaking down the barriers of stigma. Unite together with the hashtag **#iamlistening** and contribute to the reduction in negative stereotypes and harmful impact of stigma.
