### **The Role of the Team**

Sexual Assault Multidisciplinary Centres (MDCs) were introduced in 2006 to improve responses to sexual offences and child sexual abuse. The centres co-locate child protection practitioners, specialist police investigators and sexual assault counsellor/advocates with strong links to forensic medical personnel. These professionals work collaboratively to provide a victim/survivor centred, specialist, integrated and holistic response to victims of sexual abuse from a single location. This ensures that victim/survivors experience fewer service providers, more timely and accessible responses, increased sensitivity, privacy, and anonymity. The state government expanded the MDC model to incorporate a community health nurse at each MDC. The community health nurse will have a particular scope and focus, noting the importance of integration and linkages with the rest of the health system and appropriate structures for support and governance.

The MDC community health nurses will practice within the social model of health, providing needs identification, care planning, referral to appropriate services providers, education awareness-raising and develop local networks of care. Community health nurses will provide short to medium term care and provide an important link with other health and community services. They will also partner with other providers to assist with quality improvement and service planning activities for survivors of sexual assault. Community health nurses will report operationally to their employing community health centres whilst they primarily work in the six Multi-disciplinary centres across Victoria, however, they will also have access to a state-wide Coordinator who will provide governance and leadership support.

### **Position Role**

Maintain and monitor, inclusive of innovations, health, and management systems within the MDC. Playing a key role in the provision of services, and referral to other services, to victims/survivors (including non-family members) of sexual assault and their families. While working as a senior member of a collaborative team and actively participate in the state-wide MDC Nursing network and BCHS.

### **Position Responsibilities**

The responsibilities of the position are:

- Assist, develop and support the ongoing implementation of comprehensive management and health systems to support the sustainable provision of MDC nursing services.
- Provide nursing services within scope of competence, legislation, standards and professional knowledge, and knowledge of other appropriate services.
- Engage clients to undertake initial needs identification and care planning with each victim/survivor.
- Understand and advise victim/survivors about the health consequences of sexual assault and pro-actively refer them to appropriate healthcare services.
- Provide tailored individual health and wellbeing support.
- Raise awareness about the role of the MDC and the health implications of sexual assault with other service providers.
- Create strong networks and to work collaboratively with relevant local health services.
- Maintain comprehensive and relevant client records and management systems according to funding and service agreements.

## **BENDIGO COMMUNITY HEALTH SERVICES**

---

- Participate in development of evaluation frameworks and collect data to assist in evaluating the MDC nurse role.
- Provide education about health issues affecting MDC clients to:
  - MDC client groups
  - MDC service providers i.e., CASA, Victoria Police, Child Protection
  - Community organisations and health care providers

### **Key Selection Criteria**

#### **Essential**

1. Registered Nurse Division 1 (current registration with AHPRA)
2. Minimum 3 years' experience community clinical experience
3. Knowledge and understanding of how trauma affects people's lives, their service needs and service usage.
4. Sound knowledge of health system, the social model of health, and a commitment to improving care across the spectrum.
5. Knowledge of mental health and impact from trauma.
6. Demonstrate a flexible approach to, and a broad understanding of the needs of victims of sexual assault, including implications for family members.
7. Excellent interpersonal, mediation and liaison skills with internal and external stakeholders.
8. Demonstrated ability to work as a member of a multidisciplinary team.
9. Moderate computer skills in utilizing Trak, Best Practice, and Microsoft office programs
10. Personal commitment to promoting equality, diversity, and human rights in all aspects of service delivery.
