

Better Health Team
PSYCHOLOGIST (WOMEN'S HEALTH)

15.2 hours per fortnight & 0.2 FTE
Fixed Term to June 2026

The Position

This position will be responsible for the provision of comprehensive psychological assessment, treatment and education of patients with pelvic pain and or endometriosis within the Bendigo Community Health Services (BCHS) pelvic pain and endometriosis clinic. Responsibilities include but not limited to; psychological assessments to identify contributing psychological factors contributing to pelvic pain and endometriosis management, providing effective pain management strategies empowering women and females assigned at birth in managing their pelvic pain and/or endometriosis, collaborate with our sexual and reproductive health team and other healthcare professionals, including general practitioners, sexual health nurses and physical therapists to ensure holistic care and optimise treatment outcomes.

To successfully apply for this position you will need:

1. A current registration with the Australian Health Practitioner Regulation Agency (AHPRA) as a Psychologist.
2. Demonstrated experience in the provision of evidence based psychological services related to pain management.
3. Clinical Skills in evidence based psychological assessment and intervention.
4. Demonstrated contemporary knowledge and skills in pelvic pain and endometriosis according to qualification competencies.
